

## Environmental Policy

15-52 Sound & Lighting are committed to managing their carbon impact by;

- Whenever possible 15-52 Sound & Lighting try to source from companies that also take their environmental responsibilities seriously.
- When sourcing equipment 15-52 Sound & Lighting considers the size, weight, power consumption and long term running costs of the equipment. The manufacturing and delivery impact are also considered.
- 15-52 Sound & Lighting is committed to constantly trying to improve its carbon impact.
- 15-52 Sound & Lighting try and use appropriately sized vehicles for the jobs being done so that large vehicles aren't being run unnecessarily.
- LED Lighting is used whenever possible to reduce power consumption and 15-52 will review the use of it's remaining generic fixtures as new low energy technology becomes available.
- Wherever possible 15-52 Sound & Lighting uses E-Invoicing and does not print any unnecessary documentation.
- This policy will be reviewed regularly to make sure all information is kept up to date.
